1. This application is in condition for allowance except for the following formal matters:
2. Figures 5-8 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. Please see reasons in next paragraph. See MPEP § 608.02(g).  
Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

It appears that Figs. 5-8 corresponding to Comparative Examples 1-4 correspond to prior art. If so the figures should be clearly labeled "Prior Art". For example, Comparative Example 1 appears to correspond to US 5,475,359, and see remarks on pages 1-2 of the specification. While the thermal black size is not specifically disclosed for US '359, it appears from the Fig. 1 of US '359 that the carbon black size is smaller than the carbon fibers, and similar in comparison to the carbon black to fiber size as disclosed as applicant's Comparative Example 1. On a more simple level, applicant's Fig. 1 is similar to prior art Fig. 1 of US '359.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
